---

1. PN = Personal Name; ‖ terminal break; | non-terminal break; / appeal tone; -- truncated intonation unit.

2. The final d was probably lost due to its proximity to the following n (at the beginning of the next intonation unit (=line).

3. The two 'x', the one at the end of the string taːʁuax and the one at the beginning of the next intonation unit (=line), are pronounced as a geminated (long) x: taːʁuaxːaˈvaləlaˈzmã.
